The two kinds of Target Group Reports

1. Comparative Summary Analysis

Cost: \$50 per box checked

This report presents all scores for your chosen target group(s) in simple multi-column grids. The report includes all the mean satisfaction scores, mean importance scores, and performance gap scores for the inventory scales and items. At a glance, you'll be able to compare your overall campus scores with such groups as males, females, full-time, part-time, day, evening, freshmen, sophomores, residence hall, etc.

2. Single-Group Analysis

Cost: \$85 per box checked

This report focuses on one particular group (for example, female students or African-American students). You'll receive a thorough analysis of the group's inventory responses presented in a variety of grids, charts, and graphs. The report also includes all demographic data pertaining to the group, and national comparison data for the target demographic group at your type of institution.

How to Request Target Group Reports

1. Check the boxes below indicating the reports and characteristics you want.
2. Count the boxes you checked for each report type (Single-Group Analysis and Comparative Summary Analysis).
3. Write separate totals for each report type on the front of the order form (reverse).

Follow these steps to request reports focusing on specific groups of students on your campus. Note that to request a Single Group or Comparative Summary report, use **only one** box to define each group. (For example, you can request a report on female students and one on African-American students, but not a Single Group or Comparative Summary report on female African-American students.) Also, be sure each group you indicate is amply represented in the overall population of students on your survey.

Multivariable and Cross-tab reports allow you to capture more than one demographic variable at a time (such as female African-American students or students 25 and older) and are available within the Custom Report options. Please contact Noel-Levitz to discuss the options and applicable fees.
